INTRODUCTION

The "Annual Utility Rate Survey" is a comparison of residential utility rates in the East Tennessee Development District. The survey is conducted each spring and distributed to the utilities and local officials serving the region.

The survey only compares residential rates and does not attempt to survey commercial and industrial rates. Since utility rates can change at any time during the year, **anyone interested in a specific utility's current rates should contact that utility provider directly.**

Since there are differences in how each gas utility adjusts its rates (some monthly and some annually) and the fact that there can be different BTU levels between utilities, **for the most up to date Gas rates, please contact your utility provider.**

Have a question about the Annual Utility Rate Survey? Contact Tyler Foster: tfoster@etdd.org

GAS SYSTEMS MAP

GAS SYSTEMS
East Tennessee Development District

CONCLUSION

The East Tennessee Development District conducts the "Annual Utility Rate Survey" as a comparison of residential utility rates within our 16 county district. The survey is conducted each summer and distributed to the utilities and local officials serving the region.

The survey only compares residential rates and does not attempt to survey commercial and industrial rates. Since utility rates can change at any time during the year, **anyone interested in a specific utility's real time rates should contact that utility provider directly.**

Due to the differences in how each gas utility adjusts its rates, contact your provider for the most up to date rates.

Have a question about the Annual Utility Rate Survey? Contact Tyler Foster: tfoster@etdd.org

THANK YOU!
