Hey Dawn,

Our addressing manual actually prevents us from allowing streets to be named after people. Lori Jarosz could give you more info on that if you are interested. I've copied here.

Our public buildings are not named after people, and we don't have a policy that I'm aware of regarding that.

Lisa Clayton, our Parks Director, may have some info on how parks have gotten named or if there is a policy. I've copied her, as well.

Hi Emily,
Thank you so much for emailing!

We are interested in finding out if you have a policy in the event that a request was made to name a piece of public property after someone. This can include parks, buildings, streets, etc.

Any information you can provide would be greatly appreciated!
Thanking you in advance,
Dawn

Subject: Public Property

Hi Dawn,

Brenda Woods mentioned you called about the City's policies and procedures for naming public property. What types of public property are you referring to? Parks? We don't have any property that I know of other than parks, rights-of-way, and land housing government buildings, which are named by their function (Municipal Public Works, Wastewater Treatment Plant, City Hall, etc). As far as naming for Parks, I would direct you to our Parks Director, Lisa Clayton. I have not actually been involved in the naming of a City park in my years at the City.

Just let me know a little more about what you are wanting to find out, and I'll respond or get you in touch with the appropriate person. Thanks!
